a. SELAC Update

Zoila recommends getting more Spanish language books, so that students can practice reading skills in their home language; more opportunities for translanguaging; look into iReady translation options

Motion- Doucette

Additional Comments from Members:

-would love to see the stairs and hallways better kept by custodial team (interested in having a maintenance schedule for bathrooms, cafeterias, etc; for example, if bathrooms are not cleaned, we can refer to the maintenance schedule and see how many times it has been cleaned recently)

-add a visual guide to the bathroom stalls so kids know hygiene expectations for stalls

-solicit student feedback on the condition of bathrooms (feedback box)

-vertical alignment across grade level standards (essential standards/ scope and sequence for Vista students); 5th grade team meets with the middle school team to determine where gaps are happening and try to explicitly teach missing skills

-providing families with access to technology (chromebooks/iPads) so that the families can practice foundational skills at home (Prodigy; SplashLearn; RAZKids; STMath; other platforms that are not iReady; anything students don't have to do at school so they don't get burnt out on it)

-setting up a less adversarial relationship between families and staff (many parents only receive messages from the school when the student doesn't something wrong or when there are conferences); let's create more opportunities for positive interactions through events, texts, phone calls, etc.

-we used to have a meeting a month and now we are only meeting 4 times a year; it feels like we are just doing the bare minimum and not what is best for the school; 7 years of having a meeting a month and now we are moving to 4 times a year ; "not conducive to what we are trying to do and breaks the culture we've created"

Meeting Adjourned: 4:34 pm
